

# What's That Habitat

Taking information from the video, describe how the following animals satisfy their basic needs within their woodland habitats.

- Squirrel:
- Deer:
- Cardinal:

Test your knowledge from the video by using the word bank below to fill in the blanks.

A \_\_\_\_\_ is the natural home of a plant or animal. In order for an animal to survive, their home must have the four \_\_\_\_\_ which include: food, \_\_\_\_\_, \_\_\_\_\_ and space. The animal may not survive if one or more of these needs are not met.

Kentucky has \_\_\_\_\_ types of habitats: grasslands, \_\_\_\_\_, caves and \_\_\_\_\_. Kentucky has over \_\_\_\_\_ native tree species. Over \_\_\_\_\_ percent of the state is made up of woodland habitat.
